The Hydraulics and Sedimentation Laboratory (HSL) [http://hsl.engr.utk.edu/] is seeking a highly qualified senior or junior undergraduate student to work on some exiting projects during Fall semester 2015. Based on performance, this position can be extended for Spring 2016. The offered position involves exciting opportunities, such as participation in laboratory experiments, exposure to equipment, and field work. Lab work requires use of a flume. Field work involves installation of sensors in the Knoxville area. The student will gain new skills on sensor technology.

Prerequisites:
CE 391 - Water Resources Engineering I
CE 331 - Geotechnical Engineering I
GPA: 3.5 or higher

To apply for this position, please send a statement of personal work goals and a resume to: Prof. Thanos Papanicolaou, Department of Civil & Environmental Engineering, Director of HSL, via email tpapanic@utk.edu.
